SESSION 33

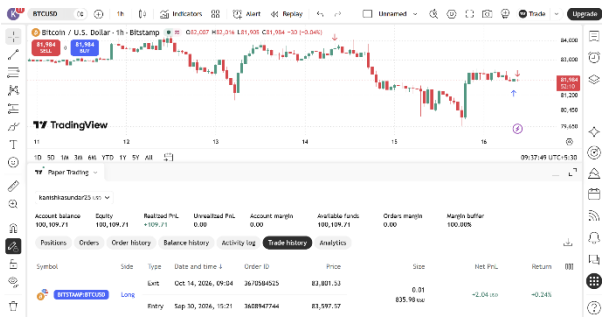

Strategy Consistency Analysis

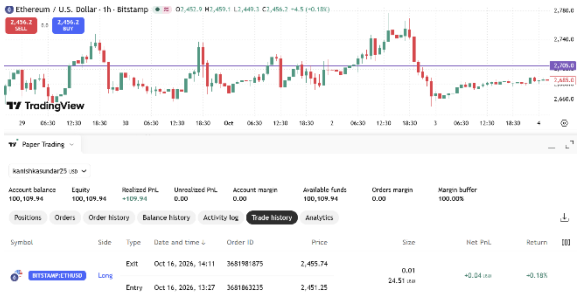

Kanishka. S

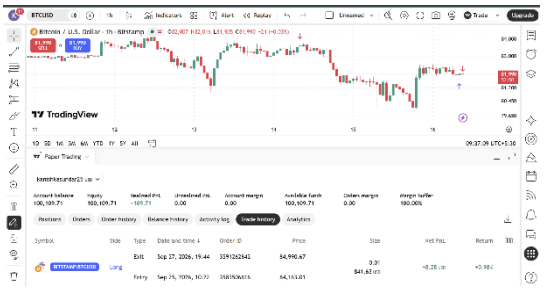

II B.Com (Hons)

Part B – Define the Strategy Conditions

STRATEGY CONDITIONS	
STRATEGY ELEMENT	**MY PLANNED CONDITION**
Strategy used	Combined strategy using SMA 50, RSI and price movement.
Market condition required	Check whether the market is an uptrend, downtrend or sideways movement.
Entry condition	Enter a trade when the price movement matches my trading plan.
Confirmation condition	Check SMA 50, RSI and price movement before entering.
Exit condition	Exit the trade according to my trading plan.
Stop-loss / Risk condition, if applicable	Use a stop-loss to limit possible losses, if planned.
Other important condition	Avoid making quick decisions and follow the trading plan.

Part C – Strategy Adherence Summary

STRATEGY CONSIST	
FIELD	**STUDENT RESPONSE**
Total trades reviewed	5
Trades where strategy conditions were followed	3
Trades where strategy conditions were not fully followed	2
Trades with clear strategy deviation	1

Main type of deviation	Making decision without enough patience.
Most common consistent behaviour	Checking price movement and chart indicators.
Most common inconsistent behaviour	Not waiting patiently before making a decision.

Part D – Strategy Consistency AREA Analysis

AREA	CONSISTENT	INCONSISTENT	EVIDENCE
Market condition selection	✓		**I checked the market movement before trading.**
Entry conditions		✓	**I still need more clarity about the correct entry price.**
Confirmation	✓		**I used SMA 50, RSI and price movement.**
Exit approach		✓	**I exit the trade without analysing in the losing trade.**
Trading-plan adherence		✓	**I partly followed my plan in the losing trade.**
Execution discipline		✓	**I made a quick decision when**

			the trade was in loss.
Avoiding impulsive decisions		✓	**I did not wait until the confirmation and loss in the trade.**

Part E – Identify Consistent Behaviours

CONSISTENT BEHAVIOUR	EVIDENCE
Checking price movement	I observed price movements before entering trades.
Using chart indicators	I used SMA and RSI as my strategy.
Planning trades	I planned my trade before entering.

Identify Inconsistent Behaviours

INCONSISTENT BEHAVIOUR	EVIDENCE	POSSIBLE REASON	HOW CAN IT BE PREVENTED?
Entry timing	Sometimes buy at a high or low price without clarity.	I need to observe and clarify the trade in entry points.	Check the trade and confirmation before entering.
Sudden price changes	I am unsure what to do when	Need more practice in	Avoid quick entry and entry

	the price changes suddenly.	handling sudden price changes.	after confirmation.
Quick exit	I sold early during a loss.	I was not patient enough.	Follow the planned condition.

Strategy Improvement Plan

AREA TO IMPROVE	CURRENT PROBLEM	ACTION FOR FUTURE TRADE
Entry confirmation	Sometimes I am unsure when to enter.	Check all planned conditions before entering.
Impulsive decisions	I sold impulsive during loss in the trade.	Wait and observe the trade before entering and making decision.
Strategy adherence	I did not fully follow my strategy in one trade.	Enter only when my planned condition confirm.
